**TO:** Members of the State Board of Education  
**FROM:** Lillian M. Lowery, Ed.D. *lmlowery*  
**DATE:** October 31, 2012  
**SUBJECT:** Major Budget Realignment Request

---

**PURPOSE:**

To review and respond to the major budget realignment request items for the month of September 2012.

**BACKGROUND/HISTORICAL PERSPECTIVE:**

This item is being presented in accordance with Maryland State Department of Education (MSDE) Policy 02.100.02.

As a part of the monthly consent calendar, the State Board reviews and authorizes budget adjustments affecting the current fiscal year's appropriation. Some adjustments require State Board action; others are reflected for information purposes only.

**Budget Amendments (State Board Action Items):**

Budget Amendments are required whenever an increase is requested for the current budget appropriation at the budgetary program and appropriated fund level (i.e., General, Special, Federal or Reimbursable Funds). The following are types of adjustments shown in the Major Budget Realignment (MBR) Request that require State Board approval:

- Tying in to grant awards received (Increases) – Special Fund and Federal Fund amounts included within the original appropriation are based upon estimated receipts. When the fiscal year begins and the actual grant or a more accurate estimated amount is higher, an adjustment is made to reflect the full amount.
- Carryover from prior fiscal year – Federal fund carryover results from the federal fiscal year overlap of three months as compared to the State fiscal year, and from the Tydings Amendment, which allows some federal formula grants to be spent for an additional 12 months. These adjustments are required to make maximum use of the grants.
- Transfers between budgetary programs – The allocation of the funds between the budgetary units and between programs within the budgets are based upon original estimates available

when the budget is prepared. During the fiscal year it may become necessary to adjust this allocation.

- Tying in to the approved Indirect Cost rates – On occasion, the actual indirect cost rates received may be materially different from the rates used in preparation of the budget. In those cases, it may be necessary to reallocate the assessment against non-State funds.
- Reorganizations – Organizational changes that cross budgetary programs are reflected by a budget amendment.

#### **Other Budget Adjustments (State Board Information Items):**

The following types of adjustments are reflected in the Major Budget Realignment Request and are shown for information purposes only:

- Recognition and Subsequent Release of Withheld Allotments – Withheld Allotments are funds appropriated in an agency's budget that have been held back pending the resolution of one or more contingencies identified in the annual Budget Bill. The funds are not made available to the agency until the identified condition(s) have been met.
- Deficiency Appropriations – Once Deficiency Requests are approved by the General Assembly as part of the Budget Bill, the approval is shown for information purposes.
- Tying in to grant awards received (Decreases) – The opposite of the adjustment type described above under Budget Amendments. These are decreases to the appropriation level in the Agency Budget (i.e., MSDE) to recognize lower than budgeted Grant Awards or Special Fund attainment.

The Major Budget Realignment (MBR) Request has several sections:

- The cover memo indicates whether there are items requiring approval or information items.
- The Synopsis of Current Pending items (if any) – On an item-by-item basis this explains and justifies any items presented for State Board approval. These items are identified as numbers (i.e., Item 1, Item 2, etc).
- The Summary of Current Pending Items (if any) – This summary schedule reflects the amount by budgetary program of each of the approval items.
- The Synopsis of Information Items (if any) – On an item-by-item basis this explains and justifies any items presented for State Board information. These items are identified as letters (i.e., Item A, Item B, etc).
- The Summary of Information Items (if any) – This summary schedule reflects the amount by budgetary program of each of the information items.

- The MBR Schedule – This schedule presents a great deal of information regarding the overall budget status and the effects of the adjustments being presented in the current month. The schedule presents the budget by Budgetary Unit (i.e., Headquarters, Aid to Education, Funding for Educational Organizations, and Children’s Cabinet Interagency Fund), by budgetary program and by appropriated fund. The columns reflect the following information:
  - The first column reflects the program and fund titles.
  - The second column, “Original Appropriation,” reflects the original appropriation level for the fiscal year.
  - The next two columns, “Approved Adjustments,” reflect adjustments that have already been made to the budget. The “DBM” column reflects adjustments made to the official appropriation level. The “MSDE” column includes those adjustments as well as decreases that would not be reflected in the official appropriation.
  - The following two columns entitled, “Approved Appropriation,” reflect the sum of the original appropriation and the approved adjustments for DBM and MSDE, respectively.
  - The next two columns reflect pending budget amendments:
    - “Prior” shows pending amendments that have been before the State Board in an earlier month but have not yet been approved; and
    - “Current” shows the items being presented to the State Board in this MBR for the approval period.
  - The final column shows the Information Item adjustments included in the current MBR.

***SYNOPSIS***  
***CURRENT PENDING ITEM***  
***October 2012***

**ITEM 1**

This adjustment requests an increase of Federal Fund Appropriation in the Headquarters budget in the amount of \$35,083 to the Juvenile Services Education (JSE) program. The funds are available as an unobligated carryover balance from a prior year grant under the Career and Technical Education – Basic Grants to States from the United States Department of Education (USDE). The objective of this program is to more fully develop the academic, career, and technical skills of secondary and postsecondary students who elect to enroll in career and technical education programs. These funds will be used to finance occupational programs within JSE such as the Electrical Training program conducted at the Victor Cullen Youth Facility.

**ITEM 2**

This adjustment requests an increase of Federal Fund Appropriation in the Headquarters budget in the amount of \$216,995 to the JSE program. The funds are available as an unobligated carryover balance from a prior year grant under the Title I Program for Neglected and Delinquent Children and Youth from the USDE. The objective of this program is to help provide educational continuity for neglected and delinquent children and youth in State-run institutions for juveniles and in adult correctional institutions, so that these youth can make successful transitions to school or employment once they are released. Funding is needed as the JSE program continues to assume responsibility for juvenile facilities. The funds will be used to purchase instructional supplies as well as to cover costs associated with central support.

**ITEM 3**

This adjustment requests an increase of Federal Fund Appropriation in the Headquarters budget in the amount of \$58,254 to the Division of Rehabilitation Services – Blindness and Vision Services. The funds are available as an unobligated carryover balance from a prior year grant under the Rehabilitation Services – Independent Living Services for Older Individuals who are Blind program. The objectives of this program are to provide independent living services that improve or expand services for older individuals who are blind and to conduct activities to help improve public understanding of the problems of these individuals. The additional appropriation will allow the Agency to serve customers who are eligible for Independent Living Services provided under the terms of this grant.

**ITEM 4**

This adjustment requests an increase of Federal Fund Appropriation in the Headquarters budget in the amount of \$167,033 to the Division of Rehabilitation Services – Client Services. The funds are available as an unobligated carryover balance from a prior year grant under the Rehabilitation Services Demonstration and Training Programs. The objective of these programs is to provide financial assistance to projects and demonstrations for expanding and improving the provision of rehabilitation and other services authorized, including related research and evaluation activities. The additional appropriation will allow the Agency to serve customers eligible for Maryland Seamless Transition Collaborative services as prescribed by this grant. In addition, these funds will be used to cover costs associated with central support services.

**ITEM 5**

This adjustment requests an increase in Reimbursable Fund Appropriation in the Headquarters budget in the Division of Career and College Readiness in the amount of \$72,926 as well as in the Division of Business Services in the amount of \$2,074. These funds are available through 09/30/2012 from the College Access Challenge Grant Program (CACGP) via an agreement between the MD Higher Education Commission (MHEC) and the Maryland State Department of Education (MSDE). The purpose of CACGP is to increase the number of low-income students who are prepared to enter and succeed in postsecondary education. This is accomplished by fostering partnerships among federal, state, and local governments and philanthropic organizers through matching challenge grants.

These funds will be used by MSDE to fulfill its obligations related to developing and implementing a series of lesson plans that support CACGP's goals as well as partnering with at least one school system to establish and/or improve career development and academic programming that emphasizes college readiness, academic preparation, and financial literacy. In addition, these funds will be used to cover costs associated with central support services.

**ITEM 6**

This adjustment requests a transfer of Federal Fund Appropriation in the amount of \$137,031 to the Juvenile Education Services program from Special Education Grants to States Program in the Aid to Education budget. The objective of this program is to provide grants to States and to assist them in providing special education and related services for all children with disabilities. Additionally, these funds will be used; (1) to procure psychological services, instructional supplies, supplies and materials, and data processing equipment; (2) to make free appropriate public education available to all eligible children; and (3) to provide early intervention services. Specifically, these funds will be used to provide counseling to the Special Education Students in Juvenile Facilities.
